

TOUBLOU ELOM SAMUEL

Data Analyst · BI Developer · Financial Modeler

Lomé, Togo • toubloussamuel@gmail.com • +228 93 87 94 93 • [linkedin.com/in/elom-samuel-toublou-056446346](https://www.linkedin.com/in/elom-samuel-toublou-056446346) • <https://elom200-git.github.io/Portfolio-V2/>

PROFILE

Trained economist (BA in International Economics, Université de Lomé) and data analyst who builds the analytical tools businesses actually run on: Excel/VBA platforms, Power BI dashboards, Python analyses and financial models. Equally strong in the quantitative work — modeling, pivot tables, automation, multi-source consolidation up to 10,000+ rows — and in the last mile that usually gets lost: clear, decision-ready recommendations presented to non-technical stakeholders. Certified in communication and marketing, experienced trainer (100+ learners), fluent in French and English. I work with SMEs, startups and institutions on data analysis, reporting automation, financial planning and team training.

KEY SKILLS

- **Quantitative analysis and financial modeling:** advanced Excel (pivot tables, advanced functions, VBA automation), Power BI (star schema, DAX measures)
- **Presentation design and visual communication** (PowerPoint). Certified in communication and marketing by the OIF
- **Structuring and synthesizing complex information** into actionable recommendations
- **Public speaking and making technical topics accessible** (certified trainer, 100+ learners)
- **Consolidating and analyzing multi-source data** (up to 10,000+ rows); variance and trend analysis
- **Python (pandas, numpy) and SQL** for data processing
- **Organizing and managing multiple parallel engagements**
- **French:** native language • **English:** B1+ level (certified, actively progressing)

PROFESSIONAL EXPERIENCE

CUBE SAEI: *Lomé, Togo*

Aug 2025 – Aug 2026

Data Analyst / Internal projects and tools

- Data analyst on several of the company's internal projects and tools

Trainer, D-CLIC Program Phase 3 (OIF) — Data Analyst & Data Protection track

- Trained 100+ learners in data tools (Excel, Python, SQL, Power BI) on behalf of the OIF, delivered across Togo by CUBE SAEI
- Designed teaching materials and presentations; provided one-on-one support on real-world projects

Freelance Data Analyst: *Various engagements, Lomé*

Nov 2024 – Nov 2025

- Cleaned, structured and analyzed complex databases (10,000+ rows) for several local SMEs
- Built automated dashboards (Excel/VBA), cutting processing time by up to 80%
- Produced recommendations from trend and performance-variance analysis

Field Sales Analyst: *DIGICOM TOGO*

May 2024 – Nov 2024

- Analyzed sales data; weekly reporting on performance and commercial KPIs

RELEVANT PROJECTS

- **Tax Revenue Analysis, OTR Togo:** consolidated 5,000+ rows across 4 relational tables, Power BI dashboard, growth and recovery-rate modeling (benchmark-style study / reporting simulation)
- **Sales Performance Analysis, Power BI:** decision-making report on 10,000+ transactions, margin and variance analysis
- **Transport Intelligence:** complete BI dashboard (Python/Streamlit) for the transport sector, from data generation to visual reporting
- **Multi-user retail management system:** built entirely in VBA, with a licensing system and remote updates

EDUCATION & CERTIFICATIONS

- **BA in International Economics:** Université de Lomé, 2025, overall GPA above 13/20
- **Certification in Communication & Marketing:** D-CLIC Program Phase 2 (OIF): designing fit-for-purpose visuals, public speaking, written and oral expression
- **Data Analysis Certification:** UNICEF, online training
- **Google Data Analytics Certification:** Google / Coursera, 2025
- **English for Developers B1 Certification:** freeCodeCamp
- **Certified OIF Trainer, D-CLIC Program, Phase 3**
